Because we do not rest until you are completely satisfied with our services. Our out-most priority is to keep our clients happy & safe. Our Customers enjoy the comfort and security of a well protected home or business. We service industrial, commercial, residential interests.

Recruitment

The security personnel are recruited after an intense and rigorous recruitment process and are well-trained to handle potential work place hazards and inter-related factors in any environment. They represent all that is best in excellence, work ethics and professionalism. The qualities desirable for our security personal include aptitude, education, age, physical fitness and social background.

Training

The security personnel are trained in specialized skills for the various types of security needs. They are trained in such a manner, that they are equipped to tackle any type of challenges. They are also trained on dealing with the customers, staff and visitors with good manners. They even are trained in acquisition of combat-ive skills, handing weapons (guns etc.).

Guarding Methodology

ASS Security Management Methodology

To thoroughly understand the customer's requirement. Be totally dedicated to accomplish the mission

Provide all resources necessary to accomplish the mission Recruit staff with the best potential

Train and motivate supervisors Build leaders and teams

Train, train and retrain

Use positive motivation Promote from within.

Site Survey

A vulnerability assessment is carried out of the site by the operations team to determine threats and risks which affects the security arrangements of the premises.

Site Design

Based on the assessed threats, risks and site situation a customized security design is planned covering:

Physical Security

Manpower Deployment

Requirements Security Systems

Requirements Security Procedures.

Recruitment

This is carried out by the personnel department in keeping with the guidelines of standard recruitment policy of the company.

This Covers :

Minimum physical standards

Education level

Written test Personal interview

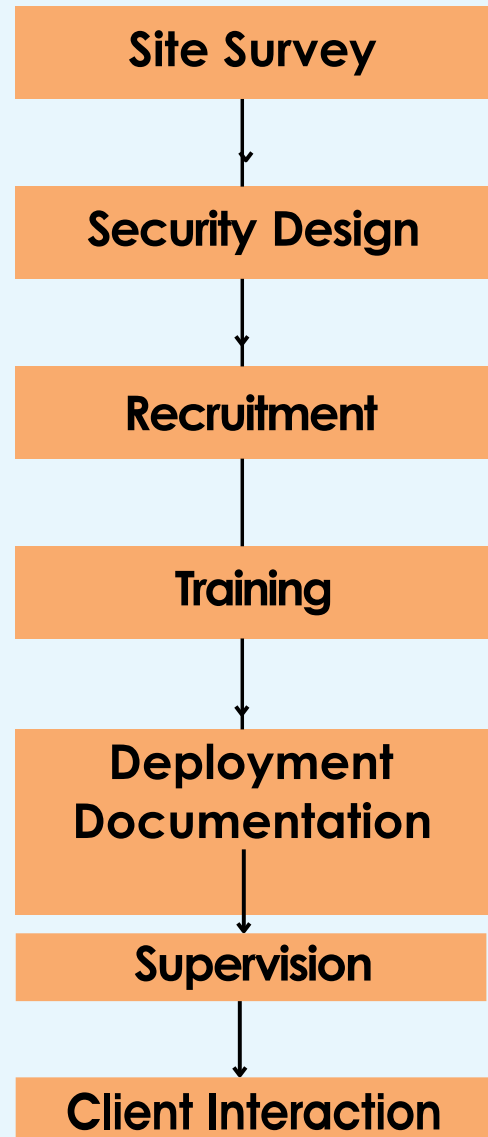

Medical Examination

Background check

Training

Each new security recruit must successfully complete the Basic Training plus the additional specific training as may be required the content is identified in the basic training Curriculum. A focus on quality awareness is an integral part of all training programmes.

A flow chart depicting standard Methodology, flow of assignments and implementation plan is shown below.

All courses culminate in written, oral and practical examinations. Guards who fail to meet the required standard either during the course or as a result of the examination are rejected. Guards that pass the course are given a certificate of completion.

Uniforms

We fully concur that a smart uniform is an essential part of a smart guard force. We at ASS pride ourselves on the uniform that we use as it is not only smart and practical but also flexible. The different layers can be used to suit the prevailing climatic conditions. To ensure consistent quality and time supply of the uniform. These are manufactured by our in-house subsidiary company. We feel it is important to mention that all our guards are issued uniform of our expense.

DEPLOYMENT/DOCUMENTATION / OJT

Based on the customised security design and the agreed manpower requirements, deployment takes place. All required documents such as site and post instructions, important telephone numbers, patrolling check lists, duty schedules, attendance rosters, training reports, leave application forms, incident report sheets are placed at the main security post. It is mandatory for the contingent to go through On job Training to familiarise with the premises and the available site and post instructions.

Supervision

During the only stage of the groups development it was realized that no one can work in a vacuum and without close management input, encouragement and stimulation security staff cannot function effectively. Therefore, in order to provide quality service, we give a lot of importance to in depth and close on the ground supervision. In this regard a strong operations team comprising of patrolling supervisors carry out checks on all our assignments and guards on a 24 hrs basis.

24x7 Control Room Services

In order to provide the best service to its Customers, the Company has developed a concept of 24 hours Control Room branch to respond to emergencies.

Security Client Interaction

To further improve upon our services, we seek continuous feedback from our customers. We have a system whereby we get a regular Clients Feedback Forms that helps us not only to take corrective action wherever required but also to further improve our services.

Periodic Reviews

Regular review meetings are held at all levels. These meetings are held on a monthly basis by managers.

QUALITY ASSURANCE

As a result of our firm's commitment to total Quality Management, our business and various operations processes has been streamlined and standardized. To meet our client expectations and maintain high quality standards, our training academy conducts exhaustive courses to develop and enhance the skills of our guarding personnel. An overview of the courses and methodology is set out below:
